

**ARKANSAS
GOVERNOR'S
SCHOOL
1989**

This 1989 Arkansas Governor's School directory is dedicated to the students of the program. Encouraged by the gifted faculty and staff, their talents, abilities, idealism, and enthusiasm have resulted in a truly exceptional educational experience.

The Arkansas Governor's School experience is impossible to describe adequately. It is a unique educational program designed to focus on the sharpening of intellectual skills, the nurturing of creativity, and the development of the personal and social consciousness essential for 21st Century problem solving. The summer residential program is designed to create an optimal learning environment for some of Arkansas' most gifted and talented students. Students attend two special disciplinary classes daily and one on Saturday, as well as three conceptual development and three personal and social development classes each week. Many of the classroom discussions continue in less formal settings around the campus. There are many guest speakers; some are entertaining, some are controversial, but all are thought provoking for those who listen. There are also multiple film series, as well as several cultural and social events packed into the six week program. There are no grades or credits given, yet the school has the very highest academic expectations. There is an unusual degree of academic freedom which is bound only by a sense of responsibility to be intellectually rigorous. The program is fully funded by the Arkansas State Legislature through the Arkansas Department of Education, and thus there is no cost to the 400 participants.

Some highlights of the '89 event were the spirit of student volunteerism and community celebration at the Conway Human Development Center, seeing the Amazing Randi, hearing Loren Hollander, making new friends, having new insights, and gaining new aspirations. It is my fond hope that each participant will have been inspired to reach for a higher standard of expectations in all of life's endeavors as a result of this summer's experiences.

Best wishes to all who were here.

FACULTY

AREA II is designed to encourage conceptual development. Discussions generally center around broad philosophical issues which the instructor and students together investigate, not so much to reach agreement or definitive conclusions but to progress to deeper levels of intellectual reflection.
