

The Behavioral Science Club (BSC) is for any behavioral sciences major or minor. BSC is currently working on joint projects with AKD and APS. Feel free to help us bridge the university to the community. We are always collecting and donating items to government and nonprofit organizations within the city of Russellville and surrounding areas!

To qualify for membership, you just need to be a student in the Department of Behavioral Sciences. For more information, contact BSC advisor Dr. Jason Ulsperger at julsperger@atu.edu.
