

## Irregular Division of Notes

A note value may be divided or subdivided into any number of equal parts, as shown in the chart in figure 1.19. Those divisions and subdivisions that require added numbers are called *irregular divisions and subdivisions*.

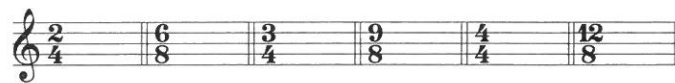

figure 1.19

Note:		
	Divisions:	Divisions:
2 parts		
3 parts		
	Subdivisions:	
4 parts		
5 parts		
6 parts		
		Subdivisions:
7 parts		

## Meter Signatures

*Meter* may be defined as a regular, recurring pattern of strong and weak beats of equal duration. This recurring pattern of durations is identified at the beginning of a composition by a *meter signature* (time signature).

figure 1.20

The figure shows a single musical staff with a treble clef and five bar lines. Between the bar lines, the following meter signatures are written: 2/4, 6/8, 3/4, 9/8, 4/4, and 12/8.

The lower digit indicates a basic note value: 2 signifies a half note, 4 refers to a quarter note, 8 to an eighth note, and so forth.

The upper digit indicates the number of basic note values per measure. It may or may not indicate the number of pulses per measure (as will be seen later in compound meters).

figure 1.21

Simple Meter

In *simple meter*, each beat is divided in two parts (simple division). The upper numbers in simple meter signatures are usually 2, 3, or 4. Some simple meters showing the division of the beat are seen in figure 1.22.

figure 1.22

Compound Meter

In *compound meter*, each pulse is a dotted note, which is divided into groups of three parts (compound division). The most common compound meter signatures are 6/8, 9/8, and 12/8. In compound meter signatures the lower number refers to the division of the beat, while the upper number indicates the number of these divisions per measure.

figure 1.23

Compound Meter Signatures:

In 6/8 meter there are only two basic pulses, in 9/8 meter there are three, and in 12/8 meter there are four.

figure 1.24

Figure 1.24 illustrates the basic pulse and its divisions in compound meters. The first staff shows 9/8 meter with three beats (1, 2, 3) and their divisions into three eighth notes each. The second staff shows 12/8 meter with four beats (1, 2, 3, 4) and their divisions into four eighth notes each. The third staff shows 3/4 meter with three beats (1, 2, 3) and their divisions into three quarter notes each. The text "(Same as 9/4)" is placed between the second and third staves.

Note that the basic pulse in compound meter will be some kind of dotted note value:

figure 1.25

Meter Signature	Beat	Divisions
$\frac{6}{4}$ , $\frac{9}{4}$ , $\frac{12}{4}$		
$\frac{6}{8}$ , $\frac{9}{8}$ , $\frac{12}{8}$		
$\frac{6}{16}$ , $\frac{9}{16}$ , $\frac{12}{16}$		

### Dynamic Markings

*Dynamic marks* indicate the general volume (amplitude) of sound. Although imprecise, such marks denote approximate levels of intensity. The following words, abbreviations, and signs are common:

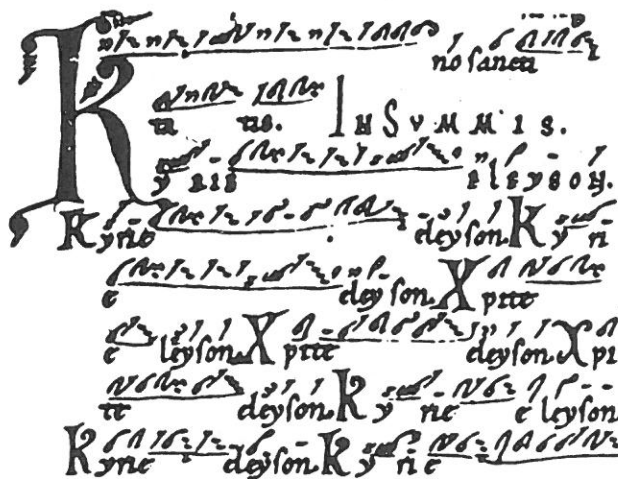

Symbol	Term	Definition
<i>pp</i>	Pianissimo	Very soft
<i>p</i>	Piano	Soft
<i>mp</i>	Mezzo piano	Moderately soft
<i>mf</i>	Mezzo forte	Moderately loud
<i>f</i>	Forte	Loud
<i>ff</i>	Fortissimo	Very loud
	Cresc. or crescendo	Gradually become louder
	Decresc., decrescendo, or dim., diminuendo	Gradually become softer
<i>sfz sf</i>	Sforzando, sforzato	Sudden accent on a single note or chord
<i>sfp</i>	Sforzando piano	Sudden accent followed immediately by soft
<i>fp</i>	Fortepiano	Loud followed immediately by soft

## HISTORY

### Neumatic Notation

From about A.D. 650 to A.D. 1200, music notation consisted of a set of symbols called *neumes* (pronounced "newms"). These symbols took their name from the Greek word for gesture. Written above the Latin texts associated with the liturgy of the Christian church, neumes could not convey pitch or duration, but rather served as a memory aid in recalling previously learned melodic lines. Figure 1.26 is an example of neumatic notation from a twelfth-century manuscript.

Whole

Half

Quarter

Eighth

Sixteenth

In passages of music involving half-step motion, sharpened tones are most often followed by tones with a different letter name a half step higher.

Notation of Duration

Notation of duration is illustrated in the following chart:

**figure 1.15**

Name	Note	Rest	Equivalents
Breve (double whole note)			Two Whole Notes
Whole Note			Two Half Notes
Half Note			Two Quarter Notes
Quarter Note			Two Eighth Notes
Eighth Note			Two Sixteenth Notes
Sixteenth Note			Two Thirty-second Notes
Thirty-second Note			Two Sixty-fourth Notes
Sixty-fourth Note			Two One Hundred Twenty-eighth Notes

## The Tie

The *tie* is a curved line that connects two adjacent notes of the same pitch into a single sound with a duration equal to the sum of both note values.

*figure 1.16*

## The Dot

Placed to the right of a note head, the *dot* lengthens the value of the note by half again its value. A *second dot* lengthens the dotted note value by half the length of the first dot:

*figure 1.17*

Dots may also be used with rests and affect them in the same way:

# Add a Meter

Add a meter signature that will fit according to the duration and grouping of each bar.

# Add a Note

Add one note value to complete the measure

Musical staff 1: A single measure in 2/4 time. The notes are a quarter note on G4, a quarter note on A4, and a quarter note on B4. The measure is incomplete, with a blank space for a final note.

Musical staff 2: A single measure in 4/4 time. The notes are a quarter note on G4, an eighth note on A4, a quarter note on B4, and an eighth note on C5. The measure is incomplete, with a blank space for a final note.

Musical staff 3: A single measure in 2/4 time. The notes are a quarter note on G4, a quarter note on A4, and a quarter note on B4. The measure is incomplete, with a blank space for a final note.

Musical staff 4: A single measure in common time (C). The notes are a quarter note on G4, a quarter note on A4, and a quarter note on B4. The measure is incomplete, with a blank space for a final note.

Musical staff 5: A single measure in 2/2 time. The notes are a quarter note on G4, a quarter note on A4, and a quarter note on B4. The measure is incomplete, with a blank space for a final note.

Musical staff 6: A single measure in 4/4 time. The notes are a quarter note on G4, an eighth note on A4, a quarter note on B4, and an eighth note on C5. The measure is incomplete, with a blank space for a final note.
